Delphi Corp Case # 05-44481 filed October 8, 2005
054481-16117, SALARIED OPEB TERMINATION MOTION
Court Docket #14705
Hearing to be held 2/24/2009 at 10:00AM

Dear Judge Drain:

This letter is to express my objection with the motion filed in Court Docket #14705 filed by Delphi Corporation on February 04, 2009, asking the court to terminate health and life insurance benefits (OPEB) for some 15,000 retirees of Delphi Corporation.

I respectfully submit to your court this **OBJECTION** to the proposed motion contained in the Court Docket #14705 and the action proposed, and file it as a motion to object for three reasons.

Part 1: I knew nothing of this action before receiving notice in the mail on February 05, 2009. This gives those affected only 12 days to digest, try to understand, and file an objection request. This is not sufficient time to analyze the data and formulate a detailed response.

Part 2: Delphi breached their contract with salaried employees.

The provisions of this motion represent a "BREACH OF CONTRACT" with the salaried employees of Delphi. Employees were recruited by GM/Delphi based on a salary and benefit package that implied, if not directly stated, that the salary and benefits were comparable or better than those paid by other companies and

that they were a part of the employment contract with GM/Delphi.

Each year, salaried employees were required to sign a document accepting the new salary and benefit package that Delphi offered. Again, the salary was lower than what it would have been were no benefits included in the package. Also, the conversation that took place during the signing session to accept the yearly changes implied that these benefits would be provided as described in the benefits manual that Delphi provided each year. A large portion of this benefits manual was devoted to retirement income and salaried benefits after retirement.

Each year, the salaried benefits package was compared both verbally and in writing to the hourly benefits package to show that the salaried employees were treated as well as the represented hourly employees. This was done to prevent salaried employees from demanding union representation. Hourly benefits are not being subjected to this motion to cancel retiree benefits because of the contract between Delphi and the various unions. Since these comparisons were made by Delphi, it is clear that the benefits were meant to have similar longevity to those specified by the hourly contract.

Some salaried employees were given the opportunity to retire early. Here again, a package was prepared showing the retirement income and benefits that would be provided if the employee elected to retire. No employee would have signed the early retirement documents if there were any hint, either verbally or otherwise, that these benefits would not be paid in the future.

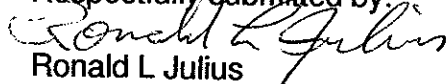

All retiring salaried employees (early retirees and normal retirees) signed documents accepting the income and benefits provisions again with the implication (verbal) that these benefits would continue during retirement.

After many employees retired, Delphi discontinued health care benefits after age 65. A number of meetings were held describing a "Wageworks pot" of \$20,000 that was to be used to minimize the trauma caused by this change. This action would indicate that Delphi truly felt some responsibility for the past promises and contracts with their employees.

This "pot" is now being eliminated along with the other benefits. However, during the numerous meetings that took place when this modification was originally made, an implication was again made that the health care and life insurance benefits would now continue until age 65.

For the numerous reasons cited above, I contend that Delphi broke its implied contract with its salaried employees and should be held accountable for that action. Delphi should not be allowed to opt out of this obligation and this motion should be rejected by the court.

Respectfully submitted by:

Ronald L Julius
